- Built-in speakers: 2

Connectivity
- Headphone: 3.5 mm
- DC in: 9V

Convenience
- Display type: LCD
- Backlight
- Alarms: Sleep timer
- Backlight colour: Blue

Power
- Battery voltage: 1,5 V
- Mains power
- Number of batteries: 6
- Battery type: UM2, R14

Accessories
- AC/DC adaptor
- Included accessories: AC power cord, AC-DC Adapter, Quick install guide, User manual, Warranty certificate

Dimensions
- Packaging dimensions (W x H x D): 293 x 251 x 180 mm
- Product dimensions (W x H x D): 269 x 212 x 130 mm
- Weight: 2.4 kg
- Weight incl. packaging: 2.6 kg

Product highlights

Interference-free DAB radio
DAB (Digital Audio Broadcasting) digital radio is, on top of FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in crystal clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember and sets are tuned by station name, so there is no returning on the move.

10 DAB and 10 FM pre-sets

Bass reflex speaker system
Bass reflex speaker system delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Sleep timer
Sleep Timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.

backlit LCD display

Mains or battery operated
